

# Welcome to the Math Success Lab!

Greetings Professor Beydler's Math 180/18 students! Interested in improving your math skills for the course? Then come try our ALEKS program at the Math Success Lab (MSL)!

The ALEKS program is an online supplemental program designed to help students perform better in their math courses. It begins with an initial assessment to see where students stand and then adapts to their learning pace. It then gives thorough instructions and examples for all the topics, provides detailed explanations for incorrect answers, and reassesses students throughout to ensure that they retain previously learned topics.

*Requirements:* 12 hours in the MSL over the course of 6 weeks  
*Completion Prizes:* Certificate of Completion as proof of completion  
1% Extra Credit towards your Final Exam in the course
