Solving Percent Problems (Portions)

A portion of sales earnings that a salesperson receives is called a _____.

Ex 1.

Edmund earns 20% of total sales in commission. If he sells $18,245 in merchandise over a two-week period, what is his commission?

Ex 2.

Jennifer sells real estate and receives a commission of $6758.30. If her commission rate is 8%, what was the total sale?

Ex 3.

Karina took a survey of students to find out if they like food served at the Mountie Grill. Out of the 50 students in the survey, 45 liked the food. What percent of the student in the survey liked the food at the Mountie Grill?

Ex 4.

What would you need on a 75-point test to get a 90%?

Ex 4.
